Due to our rapid growth, we are looking for a **Business Intelligence Developer**. you will be responsible for the development, optimization, and maintenance of financial and management reports utilizing our MS SQL 2008 data warehouse to satisfy business requirements. This role will be required to assist in the development of requirements, and to work with our business analysts in the delivery of quality, user-ready, analytics/reporting. The incumbent will be expected to exercise standard engagement practices and communication principles, with internal and external parties to ensure solutions of quality and value.

Other responsibilities:

- Develop new calculated measures, dimensions, and KPI's in our MS SQL Server 2008 Analysis services cubes
- Build Dynamic and Static reports utilizing Strategy Companion, SQL Server 2008 Reporting Services, MS Excel 2010, and other technologies
- Build/Modify ETL packages using MS SQL Server 2008 Integration Services
- Develop data maintenance and input tools as required
- Develop and maintain data architecture, code structure/standards, and metadata
- Assist in the management of 3rd party database vendors, consultants, and contractors

Required Skills and Qualifications:

- Post-Secondary Education in related field
- Excellent verbal and written communication skills
- Knowledge: of Strategy Companion, Microsoft SQL 2008 T-SQL, MDX, Analysis Services, Reporting Services, Integration Services
- Mid-market ERP experience (technical), preferably in MS Dynamics GP 2010
- Experience with Clarity and/or Atlas Planning Suite and Asset
- Ability to facilitate cross-functional project teams
- Demonstrated innovation and problem solving skills
- Ability to work in a highly entrepreneurial environment
